Social Commitment

Our Social Responsibility and Sustainable Development Model is based on four pillars: Ethics and Values, Our People, Community and Planet

ENERGY

We are leaders in the production and marketing of electrical conductors, which makes possible the productive life of homes, businesses, and communities.

We contribute to progress and well-being through innovative and sustainable transformer solutions for the generation, transmission and distribution of electrical energy.

FOOD

We produce and market foods of the highest quality that offer nutrition, wellness, and innovation.

We energize and delight with excellent snacks within everyone's reach.

NEW BUSINESS

We develop electromobility solutions to facilitate the transition to sustainable mobility.

We develop solutions based on nanotechnology and advanced materials that reduce costs, energy, and increase the use of recycled materials.
