

XIGNUX®

At Xignux, we are leaders in the **energy and food industries.**

For 70 years, we have been laying cables that connect and nourishing moments that bring people together. Transcending energy and food to create connections of value. But not just any kind: human ones, the kind that forge positive bonds, and above all, the kind that take root. Connections that open new possibilities, that not only solve problems but improve reality. Because in addition to managing companies, we care for them. And with them, the relationships we forge with communities, with our clients, and with our energizers.

Our mission is to manage companies that energize life and society to contribute to a better world.

Our two core values are:

Being **trustworthy**
Striving for **excellence**

Our commitment has been characterized by promoting three aspects:

Industrial Diversification and Job Creation

+23,000 energizers

Operations in two countries and presence in 11

30 plants, +180 CEDIS, offices, and branches

Research and development centers: CETIV

We provide +17,000 solutions to energize your life

Financial Growth & Strength

Sales in 2025: US\$4.3 billion

40% external sales

67% of revenues dollarized

Portfolio focused on businesses with sustained profitable growth

Negative leverage and a strong liquidity position

Social Commitment

Through the Xignux Foundation, we collaborate with strategic partners to implement initiatives focused on four priority areas of investment: energy, nutrition, education and community development. Through these efforts, we have benefited nearly 700,000 people.
